The WASHLET™ RW combines TOTO's leading-edge technologies with a stylish, curved design and refined aesthetic elements.

The RW model features an adjustable warm water spray, heated by a continuous-flow water heater to ensure unlimited warm-water cleansing. The seamless heated seat enhances comfort and is designed for easy cleaning. Additional features include an odour-absorbing deodorizer and the Pre Mist function, which automatically sprays a fine mist of e-water onto the toilet bowl before use, helping to prevent waste from adhering to the surface.

The new sleek Remote Control offers touch-sensitive functions for intuitive operation. Like all WASHLET™ models, it allows users to save preferred spray settings for two users, making it easy to access personalised settings at the touch of a button. This model underscores TOTO's commitment to blending advanced technology with user-friendly design, providing an elevated bathroom experience

The WASHLET™ SW integrates TOTO's leading technologies within a sleek, square design, enhanced by sophisticated design elements.

This model features an adjustable warm water spray, heated by a continuous-flow water heater to provide unlimited warm-water cleansing. The seamless heated seat enhances comfort and simplifies cleaning. Additional hygiene features include an odour-absorbing deodorizer and the Pre Mist function, which automatically sprays a fine mist of e-water onto the toilet bowl before use. This Pre Mist helps prevent waste from sticking to the surface, maintaining cleanliness.

The new, sleek Remote Control offers touch-sensitive functions for intuitive use. Like all WASHLET™ models, the SW allows users to save preferred spray settings for two individuals, making personalized settings easily accessible with the touch of a button. This combination of advanced technology and thoughtful design ensures a premium bathroom experience, aligning with TOTO's commitment to innovation and user comfort

The WASHLET™ RX EWATER+ merges elegant design with TOTO's renowned standards of hygiene and innovation.

This model includes an adjustable warm water spray, heated by a continuous-flow water heater, ensuring unlimited warm-water cleansing. It also features a heated seat for added comfort, an odour-absorbing deodorizer, and the Pre Mist function, which automatically sprays a fine mist of water onto the toilet bowl before use. This Pre Mist helps prevent waste from adhering to the surface, maintaining superior cleanliness.

The seat of the WASHLET™ RX is made from durable urea resin, ensuring long-lasting quality and comfort. The model also includes a sleek Remote Control with touch-sensitive functions, allowing users to save and access preferred spray settings for two individuals at the touch of a button. This blend of advanced technology and sophisticated design ensures an enhanced, hygienic bathroom experience that aligns with TOTO's commitment to innovation and user comfort.

The WASHLET™ SX offers the same advanced features as the RX model, distinguished only by its angular design.

This elegant, slim seat is crafted from durable urea resin and incorporates TOTO's renowned technologies. The SX includes a heated seat for added comfort, an adjustable warm water spray with a continuous-flow water heater for unlimited cleansing, an odour-absorbing deodorizer, and the Pre Mist function, which automatically sprays a fine mist of water onto the toilet bowl before use. This Pre Mist helps prevent waste from sticking to the surface, ensuring superior hygiene.

The WASHLET™ SX also features a sleek Remote Control with touch-sensitive functions. As with all WASHLET™ models, it allows users to save preferred spray settings for two individuals, making personalized settings easily accessible at the touch of a button. This model combines innovative technology and sophisticated design to deliver a premium bathroom experience, reflecting TOTO's commitment to excellence and user comfort.

The WASHLET™ RG blends elegant design with TOTO's consistently high standards of hygiene and innovation.

This model features three different types of sprays for precise, adjustable cleansing of the front and rear intimate areas. Users can activate additional massage spray and oscillating functions for enhanced comfort. The water pressure, temperature, and wand jet position are individually adjustable, ensuring a personalized and thorough cleansing experience. Key features include odour absorption, a heated seat, and the Pre Mist function, which automatically sprays a fine mist of electrolysed water onto the toilet bowl before use to prevent waste from sticking to the surface.

The wand jet is always positioned above the ceramic and behind a protective flap to ensure maximum hygiene. The lid of the WASHLET™ RG is made of glass-fibre reinforced plastic (GFRP), and the seat features a seamless one-piece design for added comfort and easy cleaning. This model combines innovative technology with sophisticated design, providing a premium bathroom experience that aligns with TOTO's commitment to excellence and user comfort.

### Key Features

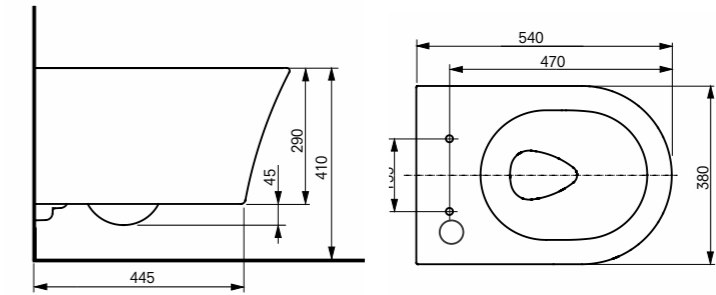

- Warm Water Nozzle
- Heated Seat
- EWater+ for wand
- Decalcifying Function
- Seamless Seat
- Tornado Flush
- CEFIONTECT Glaze
- Rimless Design
- Water Saving
- 4.5 Litre Flush

The WASHLET™ RG Lite combines elegant design with TOTO's renowned high standards of hygiene and functionality.

This model offers three different types of sprays for precise, adjustable cleansing of both front and rear intimate areas. Users can also activate additional massage spray and oscillating functions for enhanced comfort. The water pressure, temperature, and wand jet position are all individually adjustable, ensuring a personalised and thorough cleansing experience. As with all WASHLET™ models, the RG Lite allows users to save preferred spray settings for two individuals on the Remote Control, making personalised settings easily accessible at the touch of a button.

The wand jet is always positioned above the ceramic and behind a protective flap to ensure maximum hygiene. The lid of the WASHLET™ RG Lite is made of glass-fibre reinforced plastic (GFRP), and the seat is a seamless one-piece design for easy cleaning and added durability.

# FLOTATION TUB

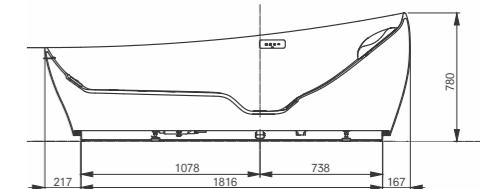

# FLOTATION TUB

The TOTO Flotation Tub is designed to deliver the ultimate relaxation experience, combining elegant design with advanced technology. This tub is crafted to put the bather in a position that mimics weightlessness, known as “ZERO DIMENSION,” which helps to relieve pressure on joints and muscles, promoting deep relaxation. The ergonomic design supports the body in a reclined position, inspired by the posture of astronauts in zero gravity, significantly reducing stress and enhancing mental tranquility.

Key features of the Flotation Tub include special air jets integrated at the bottom and under the legs, creating a dynamic flow of water that massages the body and enhances the sensation of weightlessness. The height-adjustable, ergonomically designed neck pillow maintains the neck and shoulders in a comfortable position, while the “Hydrohands” massage jets simulate the sensation of real hands massaging the back. The tub is made from Galaline, a durable, smooth-surfaced composite, and includes atmospheric LED lighting for a serene, spa-like ambiance in your home. Control of all these functions is seamlessly managed via an intuitive panel inside the tub.
