The wedi principle for new builds and renovations

The modular wedi system opens up a multitude of possibilities so that every bathroom and wet room can be individually designed. Whether it's a new build or a renovation, wedi offers perfectly coordinated products which can be combined with one another any way you like for every situation in the bathroom – from wedi Fundo shower systems and building systems through design elements and ready-to-install design surfaces to a wide range of system accessories.

On the details in this price list

This price list applies to all deliveries from January 1st 2025, when all previous prices become invalid. All prices are non-binding recommended retail prices, subject to the applicable rate of VAT and potential surcharges. Prices are ex works, exclude packaging and are subject to change. You can find our terms of delivery and payment in our general terms and conditions (www.wedi.net/uk/terms-and-conditions/).

Changes may have been made to some products after the editorial deadline of this price list on 30.09.2024. There may be changes to designs or formats as well as to the scope of delivery of some items provided that these are deemed reasonable and of course, taking the interest of customers into consideration. The above data and information have been carefully checked. Changes to construction and design as well as errors and misprints are reserved.

Good to know

wedi Shower Configurator

Configure. Order.

Install. Finish!

01 | wedi Fundo® point shower systems

wedi provides all of the components required to create a sophisticated shower area with point drainage – from flush-to-floor shower elements through matching drains and grids to surface finishes – there are various designs, functions and formats to choose from. All wedi system components are compatible with one another, tested, approved, and 100% waterproof in the complete system - for long-lasting reliability with a manufacturer's warranty.

Fundo Ligno® Plus

The Fundo Ligno Plus shower element, with outer edge thickness of just 23 mm has been especially developed for use in existing and new builds with wooden floors in combination with Fundo Top design surfaces.

It is adapted to the covering wood layer and as a result can be integrated into it wonderfully without cutting into floor joists or building up further height.

Fundo Top® marble for Fundo Ligno® Plus

The seamless, large-format design surface in marble look not only offers modern design, but also the highest product and workmanship quality. With a proportion of more than 70% real marble and a structured matt surface, it looks particularly authentic. The required matching slope is already integrated into the thin and lightweight surface that can be simply bonded to the Fundo shower element. The highlight: with the new frameless drain cover, the entire shower shines with a uniform look. Stylish, comfortable and contemporary.

System configuration

wedi Fundo shower systems with point drainage provide all of the necessary, coordinated components which you need for the installation and sealing of flush-to-floor shower elements from wedi.

- Perfect for installation in or on screed and suspended timber floors
- In a square, rectangular, round, quarter circle or shell shape
- With central, offset or corner drain position
- Optionally with vertical or horizontal drainage
- Easy to install and seal with the appropriate wedi accessories
- Bespoke wedi Fundo elements are available on request

Complete system

The complete system with point drainage has a drain integrated into the shower element in the factory. The matching drain grid and sealing sheet are already included in the scope of delivery.

Sealing of the complete system to the adjacent surfaces is done with the wedi Fundo sealing set, comprising wedi 520, wedi Tools sealing tape and wedi Tools sealing corners.

Integrated drain technology

Classic system

The classic system with point drainage consists of a wedi Fundo shower element and the matching drain, which is available separately in different versions. The scope of delivery for point drains always includes a standard wedi Fundo 1.1 drain grid. Designer drain grids are also available to order at an extra cost.

Sealing of the complete system to the adjacent surfaces is done with the wedi Fundo sealing set, comprising wedi 520, wedi Tools sealing tape and wedi Tools sealing corners.

Separate drain technology

Required system components

System component	wedi product		
Shower element	wedi Fundo shower element with point drainage		
Drain	wedi Fundo point drain suitable for wedi shower elements with point drainage		
	vertical DN 50 vertical DN 50 fire protection collar vertical DN 70 vertical DN 70 fire protection collar	horizontal DN 50	Mini Max horizontal, extra flat DN 40
Sealing	wedi Fundo sealing set includes all components for the sealing of joints between the wedi Fundo shower element and adjoining areas		
Installation material	wedi 320 universal tile adhesive		

Optional system components

System component	wedi product
Sound insulation	wedi Nonstep ProS sound insulation mat*
	wedi Tools edge insulation strips for acoustic decoupling between the shower element and the wall
Accessories	wedi Fundo substructure set substructure element for height compensation
	wedi Fundo sloping board
	wedi Fundo designer drain cover
	wedi Fundo drain frame
	wedi Fundo drain substructure element suitable for Fundo point drains vertical/horizontal DN50 especially recommended for installation in suspended timber floors
	wedi Tools cut-resistant tape
	Fundo Top ready-to-use surface** tailor-made surfaces for wedi Fundo shower elements

* When using the sound insulation mat, the installation height is increased by 9 mm.

** When using the Fundo Top surface, the build-up height increases by the thickness of the surface material plus 1 mm adhesive layer thickness (wedi 610).

02 | wedi Fundo® linear shower systems

Fundo Flex® – the versatile linear drainage that suits any shower area

The Fundo Flex sets new standards in the world of wedi systems and impresses with its slim, only 35 mm wide channel profile which fits seamlessly into every bathroom design. With flexible installation options such as customisable channel elements and channel profiles or complementary sloping boards, it offers freedom in design and maximum flexibility during the installation.

NEW

wedi Fundo sloping board

With an integrated slope of 1.5%, it enables optimal installation in/on screed or suspended timber floors.

wedi Fundo shower channel 1.0

Consisting of an easily removable grid with hair catcher and an adjustable channel profile for tile thicknesses from 6 to 25 mm. Ideal for easy cleaning.

wedi Fundo Wave drain

Consisting of an adapter with a secure bayonet closure and an almost self-cleaning drain pot (DN 40 and DN 50) with an integrated odour trap.

Fundo Flex

Consisting of a channel element suitable for screed or suspended timber floors and an eccentric for maximum installation flexibility.

NEW Fundo Flex® channel element ▪ rectangular

01.02.2025

	length × width × thickness	price	order no.	GTIN
	1.200 × 160 × 22,5 mm	£ 165.69	077500017	4024125205191
	1.600 × 160 × 22,5 mm	£ 193.93	077500018	4024125205207

- The narrow Fundo Flex channel element can be individually shortened, installed in or on the floor substrate and optimally adapts to any bathroom. Thanks to the pre-assembled eccentric, the position of the channel (close to the wall, at a distance from the wall) can be adjusted flexibly and easily
- The length of the channel element determines the appropriate shower channel

- accessories**
- required: wedi Fundo Wave drain, wedi Fundo shower channel 1.0
 - optional: wedi Fundo sloping board, wedi Tools sloped lip-end sealing tape, wedi Fundo slope profile, wedi Fundo sealing set

wedi Shower Configurator

Configure. Order.

Install. Finish!

02 | wedi Fundo® linear shower systems

wedi offers all components for the creation of a sophisticated shower area with stylish linear drainage, optionally with the drainage channel close to the wall, at a distance from the wall or at the centre. There is a selection of matching drains, height-adjustable channel covers and even surface finishes to choose from. All wedi system components are compatible with one another, tested, approved and 100% waterproof in the complete system - for long-lasting reliability with a manufacturer's warranty.

Fundo Riolito® Neo

The Fundo Riolito Neo is a floor-level wedi shower element with three highlights: drain channel close to the wall, a continuous, even slope up to the channel and flexible adaptation to the room situation.

The shower element has the required slope already integrated. Thanks to the one-sided slope, the Fundo Riolito Neo enables almost seamless laying of large-format tiles in a wide range of thicknesses (5 – 25 mm) as well as the precisely fitting Fundo Top design surfaces.

Linear drainage
especially close to the wall

Fundo Top® marble for Fundo Riolito® Neo

The new Fundo Top marble design surface offers modern design and the highest quality. With more than 70% real marble and an authentic matt finish, it gives the bathroom a unique aesthetic. The lightweight surface is easy to install and matches the wedi Fundo shower element perfectly. Thanks to the integrated gradient and frameless cover, it gives a harmonious look for the entire shower. Stylish, comfortable and contemporary.

Modern and
frameless look

System configuration

wedi Fundo shower systems with linear drainage provide all of the necessary, coordinated components which you need for the installation and sealing of flush-to-floor shower elements from wedi.

- Perfect for installation in or on screed and suspended timber floors
- In a square and rectangular version
- With a short or long channel
- With the drain positioned close to the wall, at a distance from the wall or in the centre
- Optionally with vertical or horizontal drainage
- Easy to install and seal with the appropriate wedi accessories
- Bespoke wedi Fundo elements are available on request

Complete system

The complete system with linear drainage has a drain integrated into the shower element in the factory. The matching standard channel cover and sealing sheet are already included in the scope of delivery.

Sealing of the complete system to the adjacent surfaces is done with the wedi Fundo sealing set, comprising wedi 520, wedi Tools sealing tape and wedi Tools sealing corners.

Integrated drainage

Classic system

The classic system with linear drainage consists of a wedi Fundo shower element and the matching drain, which is available separately in different versions. The scope of delivery of the linear drainage does not include the channel cover, therefore this needs to be purchased separately.

Sealing of the complete system to the adjacent surfaces is done with the wedi Fundo sealing set, comprising wedi 520, wedi Tools sealing tape and wedi Tools sealing corners.

Separate drain technology

Required system components

System component	wedi product
Shower element	wedi Fundo shower element with linear drainage
Drain	wedi Fundo channel drain suitable for wedi shower elements with linear drainage
	vertical DN 50 vertical DN 50 fire protection collar
	horizontal DN 50
	Mini Max horizontal, extra flat DN 40
Channel cover	wedi Fundo channel cover suitable for wedi Fundo linear drainage
Sealing	wedi Fundo sealing set includes all components for the sealing of joints between the wedi Fundo shower element and adjoining areas
Installation material	wedi 320 universal tile adhesive

Optional system components

System component	wedi product
Sound insulation	wedi Nonstep ProS sound insulation mat*
	wedi Tools edge insulation strips for acoustic decoupling between the shower element and the wall
Accessories	wedi Tools step-folded, sloped lip-end sealing tape preformed sealing corners for wedi Fundo shower elements with linear drainage
	wedi Fundo channel frame
	Fundo Discreto optical wall-drain attachment element
	wedi Fundo sloping board
	wedi Fundo slope profiles for optical slope compensation
	wedi Fundo substructure sets substructure elements for height compensation
	wedi Fundo channel drain substructure element suitable for Fundo channel drains vertical/horizontal DN500 particularly recommended for installation in suspended timber floors
	wedi Tools cut-resistant tape
	Fundo Top ready-to-use surface** tailor-made surfaces for wedi Fundo shower elements

* When using the sound insulation mat, the installation height is increased by 9 mm.

** When using the Fundo Top surface, the build-up height increases by the thickness of the surface material plus 1 mm adhesive layer thickness (wedi 610).

full pallet quantity 10 units

wedi Fundo® substructure set ▪ square

for Fundo shower elements with point or linear drainage

	length × width × thickness	price	order no.	GTIN
	900 × 900 × 90 mm	£ 73.64	073743010	4024125121286
	1.200 × 1.200 × 90 mm	£ 86.13	073743011	4024125121309
	1.500 × 1.500 × 90 mm	£ 98.60	073743012	4024125121316

- The Fundo substructure set is delivered as a kit. A mount height of 30, 60 or 90 mm is produced with the help of the two elements with different thicknesses. The 3-part drain mount precisely incorporates the various drains
- The Fundo substructure set can easily be shortened to the necessary dimensions in length and width. The appropriate variant and number required depend on the dimensions of the Fundo shower element selected. Order 2 × substructure set 900 × 900 mm for 1,800 × 900 shower elements, order 2 × substructure set 1,200 × 1,200 mm for 2,000 × 1,000 shower elements
- Freely selectable drain position (depending on the Fundo shower element selected)

- The recess for the drain mount and drain pipe is created on the construction site

accessories

- required: wedi Fundo shower element with point drainage, wedi Fundo shower element with linear drainage, wedi Fundo point or channel drain
- optional: wedi 320 universal tile adhesive
- not compatible: Fundo fire protection collar point drain

scope of delivery

- 1 × EPS substructure element, 60 mm thick
- 1 × EPS substructure element, 30 mm thick
- 3 × drain mount for point and channel drains (vertical, horizontal, Mini Max)

03 | wedi design and shape

wedi design elements in a wide variety of shapes offer unlimited design possibilities. Whether benches of all types, loungers or plumbing and bathroom furniture – the wide variety of designs allow for the creation of stylish and modern bathroom and wellness areas. Perfectly tailored to the wedi system, the wedi Top Line offers seamless design surfaces in place of traditional tiling as an optional surface finish.

wedi Sanoasa® Top corner seat element

The wedi Sanoasa Top corner seat element combines the proven wedi Sanoasa corner seat element with a preapplied wedi Top design surface in pure white. The seamless surface provides invisible transitions at the edges. Available in sizes M and L, it impresses with its compact, triangular form and allows subsequent installation in any shower – ideal even as a shelf in the smallest bathroom.

The already proven Sanoasa corner seat element and the sophisticated Top design surface makes this product solution an ideal addition to any bathroom. With its high-quality easy-to-maintain antibacterial surface, and 150 kg load capacity, it creates added value across generations.

Load capacity up to 150 kg

NEW

wedi Top® Wall marble design surfaces

The new seamless, large-format wedi Top Wall marble surface offers modern design with a natural marble look. The material is made of over 70% real marble and the design looks particularly authentic thanks to the structured, matt surface.

The panels are only 4 mm thick and lightweight, which facilitates easy handling and assembly. At 2600 mm tall, they can easily cover the entire wall height. Stylish, comfortable and timeless.

For seamless wall
and surface cladding
in marble look

04 | wedi building systems

The wedi building board forms the basis for the versatile wedi building systems and is available in a variety of versions: in small or large size for floor and wall applications as a pre-grooved variant to create curved structures and in the form of functional elements, e.g. for shelf and niche solutions and for the cladding of pipe connections and WC drywall installations. All variants are directly tileable and combine light weight with high stability.

wedi I-Board® Top

The sleek design surface for toilet cistern claddings offers an optimal solution for hygienically demanding areas. The wedi I-Board Top is a complete, ready-to-install surface that through its antibacterial and grout-less surface facilitates cleaning and utmost hygiene.

Available in four colours, it adds an elegant touch to any bathroom. Tailor-made to fit both the wedi I-Board and I-Board Plus it combines functionality with attractive design.

Fundo Top® cladding

Originally designed for wedi shower structures, Fundo Top cladding strips also offer an excellent option for cladding the sides of wall-hung toilet cisterns. The wedi I-Board and I-Board Plus combined with the wedi I-Board Top and Fundo Top cladding, ensure a harmonious overall appearance. This sophisticated system solution maximizes installation efficiency and minimises leftover cuts.

 - 1 × chrome-plated doorknob
 - 2 × high gloss anodised aluminium wall connection profiles
 - 1 × stop rail
 - 1 × sealing and protection profile
 - 1 × silicone
 - 14 × screws

delivery time approx. 6 – 8 weeks ex-works

05 | wedi system accessories

Quick, high-quality with guaranteed reliability – the versatile range of accessories from wedi offers certified components of wedi sealing systems as well as practical system aids for adhesion and installation. From the tried and tested wedi 610 adhesive sealant through fleece-backed sealing membranes and corners to the comprehensive wedi Fundo sealing set for all professional connections and joints in the shower. All products are perfectly coordinated and easy and quick to install.

wedi 610° adhesive sealant

As a versatile single component adhesive sealant, the wedi 610 is ideal for the simple, secure and waterproof joint connection between wedi building boards in just one easy step.

The combination of wedi building boards and wedi 610 has an ETA approval for highly stressed areas.

Solvent-, silicone- and PCP-free

wedi Tools° shower trays sealing set

The wedi shower tray sealing set has been especially developed to ensure reliable sealing of shower trays of all types. This set is suitable for a variety of materials such as acrylic, resin or ceramic.

Specially designed
for sealing of shower trays

Sealing in the wedi system with quality guarantee

The right solution for every requirement

Sealing is a key theme in the building and renovation of bathrooms, in particular because of the interaction of various trades. That is why wedi has developed its own tested and approved sealing concept for wet rooms. The sealing details include edge joints on walls and floors, expansion and contraction joints, transitions to the shower area and all types of intersections.

Consisting of interlocking products that are safe, easy and quick to install, the wedi sealing system is tested and approved according to international and national standards. Whether it is CE labelling or DIN standards - every year, the individual products are audited by an independent testing institute according to the strictest quality and safety criteria. The result is impressive: lasting reliability in the system.

The best thing: all wedi price list items that have a waterproofing function are part of the 10-year wedi quality guarantee. Reliability in the system and guaranteed!

For a detailed product overview and the applicable warranty conditions, please visit www.wedi.net.

Types of surface sealing

No.	Area	Exposure to water Water impact (in accordance with DIN 18534-1)	Waterproofing type	Recommended sealing systems
1	Wall surfaces in showers	moderate (W1-I)	panel type seal	wedi building boards
			liquid seal	wedi 520 flexible sealant
			sheet type seal	wedi Subliner Dry
			sheet type seal	wedi Subliner Dry & Flex
2	Shower partition wall	moderate (W1-I)	panel type seal	wedi building board, as a partition wall from 50 mm
3	Flush-to-floor showers	high (W2-I)	panel type seal as a shower element with drain	wedi Fundo shower elements
4	Wall surfaces above bathtubs	moderate (W1-I)	panel type seal	wedi building boards
			liquid seal	wedi 520 flexible sealant
			sheet type seal	wedi Subliner Dry
			sheet type seal	wedi Subliner Dry & Flex
5	Floors without high exposure to water from the shower area	moderate (W1-I)	panel type seal	wedi building boards
			liquid seal	wedi 520 flexible sealant
			sheet type seal	wedi Subliner Dry
			sheet type seal	wedi Subliner Dry & Flex
	Floors with flush-to-floor showers	high (W2-I)	panel type seal	wedi building boards
			liquid seal	wedi 520 flexible sealant
			sheet type seal	wedi Subliner Dry
			sheet type seal	wedi Subliner Dry & Flex

National standards, data sheets and guidelines should always be observed

 - 2 x wedi Tools inside corners

full pallet quantity 36 units

wedi Tools® shower tray sealing set

for sealing with wedi 520

	content	price	order no.	GTIN
	1 set / buckets	£ 147.90	073796001	4024125201544

- Specially coordinated set with the right material for secure sealing of shower trays (resin, acrylic, ceramic)

- scope of delivery
 - 1 x wedi 520 powder component, 2,4 kg
 - 1 x wedi 520 liquid component, 1,2 kg
 - 1 x wedi Tools butyl bathtub sealing tape, 10m
 - 1 x self-adhesive decoupling strip, 10m
 - 2 x wedi Tools butyl sealing corner for walls
 - 4 x wedi Tools butyl sealing corner for floors

full pallet quantity 36 units

wedi Tools® wall sealing set

for sealing with wedi 520

	content	price	order no.	GTIN
	1 set / box	£ 161.02	095110371	4024125127257

- A specially tailored set with all necessary components required for the reliable sealing of shower walls within the wedi system

- accessories
 - required: wedi 320 universal tile adhesive

- scope of delivery
 - 1 x wedi 520 powder component, 2,4 kg
 - 1 x wedi 520 liquid component, 1,2 kg
 - 1 x wedi Tools sealing gaiter 250 x 250 mm
 - 2 x wedi Tools sealing gaiter 130 x 130 mm
 - 3 x wedi Tools sealing tape, 250 x 12 cm
 - 3 x wedi Subliner Dry sealing membrane, 250 x 100 cm

full pallet quantity 24 units

wedi Tools® sealing tape ▪ fleece laminated

for sealing

	length × width × thickness	price/meter	price/unit	order no.	GTIN

- +** accessories
 - required: wedi 320 universal tile adhesive
- full pallet quantity 18 units

wedi Tools® joint reinforcement tape ▪ self-adhesive

for decoupling

	length × width	price	order no.	GTIN
	25.000 × 125 mm	£ 22.94	095225053	4024125009256
	50.000 × 600 mm	£ 173.69	095215052	4024125009249

- i** Self-adhesive tape to reinforce and stabilise structural panel joints

wedi Tools® joint reinforcement tape

for decoupling

	length × width	price	order no.	GTIN
	25.000 × 125 mm	£ 19.64	095220053	4024125522021
	50.000 × 600 mm	£ 75.03	095210052	4024125520010

- i** Tape to reinforce and stabilise structural panel joints

wedi Tools® cut-resistant tape

	length × width × thickness	price	order no.	GTIN
	10.000 × 35 × 0,9 mm	£ 156.00	095110353	4024125127233

- i** The wedi Tools cut-resistant tape is a cut and stab-resistant tape for protecting the sealing at the edge of Fundo shower elements and bathtubs. This waterproof tape with a high-quality zirconium corundum surface is specially tailored to the wedi sealing system and thanks to the self-adhesive strip ensures good adhesion

wedi Tools® washer ▪ galvanised metal, diameter 35 mm

for mounting

	content	price	order no.	GTIN
	10 units / sachet	£ 3.11	094862106	4024125009829
	100 units / box	£ 24.60	094860106	4024125480109

- i** Prevents the screws from being driven into the XPS foam
- 👷** 5 pieces per m² with ceramic tiles; 8 pieces per m² with large format tiles or natural stone

wedi Tools® washer ▪ stainless steel V₂A, diameter 35 mm

for mounting

	content	price	order no.	GTIN
	10 units / sachets	£ 7.32	094861239	4024125091886
	100 units / box	£ 54.01	094860239	4024125009508

- i** Prevents the screws from being driven into the XPS foam
- 👷** 5 pieces per m² with ceramic tiles; 8 pieces per m² with large format tiles or natural stone

wedi Tools® metal dowels ▪ galvanised metal

for mounting

	length	content	price	order no.	GTIN
	50 mm	10 units / sachet	£ 8.30	094922115	4024125137157

	140 mm	100 units / box	£ 171.67	094940114	4024125490085

- For the mechanical fixing of the building board systems on a wide variety of surfaces

- Nailed dowels hole 8 mm
 - Anchoring depth in the sub-surface: at least 35 mm
 - 5 dowels per m²

wedi Tools® cavity dowels set

for mounting

	content	price	order no.	GTIN
	10 units / sachet	£ 4.35	206553004	4024125093538

- For fastening hooks, towel rails and small pieces of mounted furniture to tiled wedi structural panels
 - For loads of up to 25 kg

- scope of delivery
 - 10 x raw plugs (6.0 x 35 mm)
 - 10 x screws (4.5 x 60 mm)

wedi Tools® fixings set - composite material

for mounting

	content	price	order no.	GTIN
	1 set / box	£ 48.79	206553001	4024125093040

- For mounting heavy objects on tiled or plastered wedi building boards. Depending on the load, the larger or smaller reinforcing plate contained in the set can be used. The plate is easily integrated into a suitable recess in the wedi structural panel with wedi 610 adhesive sealant

- scope of delivery
 - 12 x small panels (100 x 100 x 8 mm)
 - 2 x elongated panels (400 x 50 x 15 mm)

wedi Top® Wall installation set

	content	price	order no.	GTIN
	1 set / box	£ 29.86	076449017	4024125121927

- For installation of wedi Top Wall ready-to-use surfaces to provide a uniform joint appearance

- scope of delivery
 - 4 x levelling caps, 2 mm
 - 4 x wood wedges
 - 4 x threaded spacers for levelling caps

wedi Nonstep® ProS sound insulation fleece

	length × width × thickness	price	order no.	GTIN
	900 × 900 × 9 mm	£ 64.87	011255007	4024125127202
	1.200 × 600 × 9 mm	£ 57.67	011255008	4024125127219

- i** The wedi Nonstep ProS sound insulation mat is a thin fleece mat which is used under a wedi Fundo shower element for decoupling and sound insulation. For improvement of the sound insulation which is required in accordance with DIN 4109 (minimum requirement) and VDI 4100 (increased requirements)

- +** accessories
 - required: wedi Tools edge insulation strips

wedi Nonstep® Plan sound insulation mat

	length × width × thickness	price	order no.	GTIN
	1.196 × 590 × 6 mm	£ 37.89	011220000	4024125122016

- i** Suitable for direct tiling
 - Impact sound deadening: 14 dB

wedi Tools® edge insulation strips

	length × width × thickness	price	order no.	GTIN
	25.000 × 150 × 5 mm	£ 9.11	011255006	4024125094696

- i** Reduces sound transmission between the Fundo shower element and adjacent areas (wall, screed, etc.)

content per box 8 units

06 | Good to know

wedi offers more. On the following pages you will find a compact overview of technical information and all of the services wedi offers its customers: from project business through commitment to reliability and standards to the voluntary manufacturer's guarantee. Real added value for maximum peace of mind.

Configure. Order. Install.

Implementing the customer's ideas requires craftsmanship and a special imaginative power. With the wedi shower configurator, you can assemble your customer's dream shower online any time and even adjust the configuration if new ideas come up during the creation process.

Another plus: the system not only suggest the suitable products for every installation situation but also prevents incorrect orders. Configure, order, get started!

www.wedi.net/uk/shower-configurator

Technical notes

All technical information is available at www.wedi.net

The wedi world of systems contains a multitude of individual elements which can be variably used and modularly expanded. You can find various technical documents which give you an overview of the respective formats, dimensions and technical requirements, as well as internationally usable installation instructions and videos at www.wedi.net/uk/downloads/ so that you can plan efficiently and you are always on the safe side.

Notes on floor construction

Parameters relevant for your planning

Quite often, especially in renovation projects, the available construction heights are limited and for this reason, many suppliers aim to advertise with the lowest possible construction height specifications. This can be misleading and often results in incorrect calculation of the required floor height. As a responsible supplier, wedi always advertise the highest thickness of its floor elements so that clients are always on the safe side.

Calculation of the floor construction height

When planning a wedi floor-level shower, the floor construction height (without floor covering or adhesives) is calculated by adding the height of the wedi Fundo shower element (always advertised with its highest thickness at the outer edge) and the height of the corresponding drain body (vertical or horizontal). Where sound insulation is required, the height of the insulation mat must also be added.

**Notes on tiling:
maximum tile sizes for round wedi elements**

[illegible]

i The radii of the wedi products can be taken from the respective technical drawings.

wedi Fundo shower elements tiling examples

The tiling of wedi Fundo shower elements* depends on both the respective basic format as well as the composition of the integrated slope, as shown by the following examples.

* Minimum 20 x 20 mm mosaic for barefoot access. Wheelchair accessible from 50 x 50 mm tile size.

Modular construction

Ready-to-assemble systems for designing and refurbishing

With its modular system components, wedi creates brand new opportunities for designing individual, on-trend bathrooms and wet rooms. Lightweight and at the same time enormously stable wedi modules allow for the realisation of almost anything from the floor to the ceiling and practically everything else in-between: freestanding or partially attached creative partitions, shower solutions, customised bathroom furniture or complete system solutions for spa and wellness areas for example.

Our individually made module components are always tested, load-bearing and 100 % watertight structures – easier, quicker and safer than any other conventional drywall designs. Each module is custom-made. The degree of prefabrication can be freely selected: from power cables and cold and warm water pipes built in at the factory and load-bearing reinforcements, cable ducts and empty conduits through to ready-to-use technical components and fittings. All custom-made items are assembled in the wedi factory and subjected to a thorough test before delivery.

T-module used on three sides

A modular system for toilet, shower and wash basin incl. all technical components and reinforcements.

Steam bath, bench and a shower cubicle

Planned and implemented – a multisensory shower, a steam bath and bench – a private wellness area that's quick to install.

Individual spa & wellness elements

Pool & underwater structures

The experienced wedi project team realises swimming pools, whirlpools and underwater elements, such as steps and benches, exactly according to the clients ideas and specifications. Due to the completely free shaping of all elements, countless design possibilities arise. If desired, recesses and feed-throughs can be incorporated at the factory, e.g. for on-site installation of massage jets or lighting technology. This reduces the assembly effort and increases the quality of the installation.

Individual steam baths

wedi offers countless options for designing a steam bath. From the choice of the cabin geometry through the design of the vapour coating on the roof, comfortable seating and bath furniture to the technical equipment and furnishings, a multitude of details can be planned and realised according to the client's requirements. Wall and roof elements can be coated in the factory, milled recesses for cables can be incorporated into the individual modules or lighting and sound technology can be integrated during the manufacturing process. Quick installation is guaranteed thanks to the accuracy of fit and the lightness of the materials from wedi.

We provide extra security

0799 (System 2+)

The CE marking in the European area shows that a product fulfils the requirements for reliability, health and environmental protection. It confirms the tested and approved use of wedi waterproofing systems for wet rooms.

UKCA (UK Conformity Assessed) is the new product label for the UK. It shows that the wedi waterproofing system fulfils the applicable UK regulations and is approved for sale.

A general building supervisory test certificate (abP) is a proof of usability in accordance with the state building regulations. It confirms that the wedi waterproofing system meets the technical and building regulations requirements.

wedi Fundo elements have been tested, evaluated and certified by the DIN Certo Gesellschaft für Conformity Assessment mbH in terms of compliance with DIN 18040-1 and DIN 18040-2.

wedi product systems have been technically tested and awarded in France by the Centre Scientifique et Technique du Bâtiment (CSTB), a technical and scientific institute that deals with issues of construction quality and safety.

wedi product systems comply with building codes and guidelines in England, Wales, Northern Ireland and Scotland.

The MK seal of approval qualifies wedi products for use in Denmark in accordance with country-specific guidelines, norms and standards.

The Norwegian seal of approval, which meets European requirements, certifies the high technical quality of wedi product systems.

wedi products and systems are tested by the US test institute ICC-ES for national standards conformity and requirements for building regulations and approved for the US market.

wedi building systems are awarded the leading Finnish emission classification. In this context, M1 stands for the highest quality.

wedi systems are labelled in accordance with the French VOC regulations. A+ stands for exceptionally low-emission, non-hazardous product systems.

Many of our products have been awarded the Sentinel House Seal. This confirms that the products have been tested for harmful substances and contribute to a healthy living environment.

The independent certification body GUTcert certifies the holistic wedi environmental management system according to ISO 14001, energy management system according to ISO 50001 and quality management system according to ISO 9001.

The wedi quality management system and the high product quality are awarded the Finnish Eurofins seal of approval.

What if small steps achieve a big impact ...

Each journey begins with a step. wedi took the first step towards sustainability 15 years ago, when it was just a fashionable term in the construction industry. Since then, we have been steadily progressing and will continue to do so with commitment in the future. Because we are aware that the path is still long.

Shaping the future step-by-step

wedi's GREEN STEPS take you along the way. We will show you exactly what measures we have already taken to improve and promote sustainability, and demonstrate our progress with figures and facts.

Instead of big green words, we announce measurable effects. After all our motto, as a member of the Ardex Group, is "building tomorrow" and not "talking tomorrow."

The power of STEPS

The best thing about small steps: you get better every day – and you just keep at it. Because small actions, which are consistently repeated, lead to big changes. Every day, our team makes decisions that add up to a visible effect. These efforts are the driving force behind our journey toward sustainability.

The colours of GREEN

Every single decision made can have a green impact. We think beyond the potential for savings in emissions, energy and resources in production and logistics. Family, health, gender equality, life on land and in the water – everything that secures the future is a GREEN STEP for wedi.
