Smart solutions for new construction and refurbishment

For more than 40 years, wedi has stood for groundbreaking innovations in the design of bathrooms and wet rooms. Whether new construction, renovation or refurbishment – our solutions combine high-quality material with future-oriented design and sophisticated functionality. With a clear eye for tomorrow's requirements, we develop systems that are efficient, barrier-free and durable - for small bathrooms as well as for large wellness oases.

Good to know: Facts about the Price List

With wedi, you make a good decision for reliable quality, modern design – and transparent information.

The Price List applies to all orders placed from January 1st 2026, when all previous prices become invalid. All prices are recommended retail prices, subject to the applicable rate of VAT and potential surcharges. Prices are exworks, exclude packaging and are subject to changes. Our terms of delivery and payment can be found at www.wedi.net/en/gtc.

Although we dedicated significant efforts to finalising this price list up to 25 September 2025, due to the volume of the brochure, despite our greatest efforts, errors may remain. We constantly thrive to provide our customers with no less but outstanding solutions, and hence reserve the right to make reasonable adjustments concerning product design, format and or delivery time - of course, only with your best interest at heart.

wedi Shower Configurator

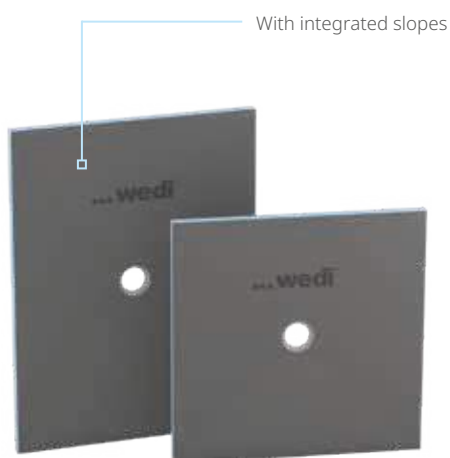

Configure. Order.
Install. Finish!

01 | wedi Fundo® point shower systems

Whether modern singles, young families or older people: everyone wants flush-to-floor showers without “stumbling blocks”. The modular Fundo system stands for reliable quality and modern design. Sophisticated shower areas with point drainage have never been easier to achieve – barrier-free, practical, robust, adaptable and versatile. Of course, all products are tested, approved and 100 % waterproof when used as system components within the wedi system.

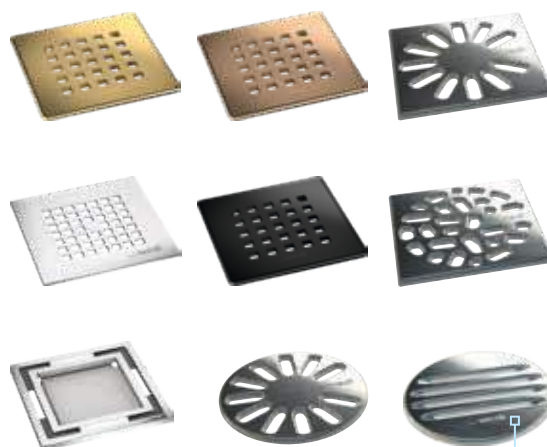

Fundo Primo® Flush-to-Floor Shower Element

It turns even the smallest, awkward corners into real feel-good places: whether square or rectangular, the reliable Fundo floor elements make the most of existing layouts. They not only open up new design possibilities and but also offer a straightforward and reliable installation: the intelligent floor solutions have their precise gradients integrated at the factory and are 100 % waterproof in the entire system. Showering is a real pleasure all around – and for years to come, worry-free.

To-the-Point Drain Covers

Whether round or angular, silver, noble black, gold or rose: you will find the perfect finishing touch for your flush-to-floor shower within the range of our brushed stainless steel Fundo drain covers. Our models in special colours have a high-quality and durable PVD coating, and we can also supply the matching stainless steel frame for a modern, sophisticated look. Furthermore, the tileable version with its elegant shadow joint effect opens up further design possibilities for tiles up to 8 mm in thickness.

Diverse
design options

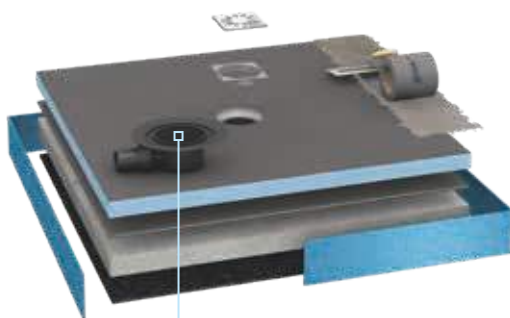

System configuration

The wedi Fundo product range has well-thought-out solutions with point drainage for any installation situation whether it be refurbishment or new construction. All components are perfectly matched and designed to interlock with one another.

- Flexible: perfect for installation in or on screed and suspended timber floors
- Diverse: square, rectangular, round, quadrant or shell-shaped shower elements
- Versatile: with central or offset drain position
- Adaptable: with either vertical or horizontal drainage
- Reliable: easy installation and sealing to adjacent surfaces with the appropriate wedi accessories
- Tailored: custom-made wedi Fundo shower elements are available on request

Smart: a classic system

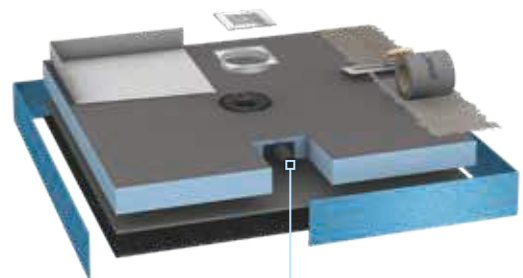

You decide! Choose a wedi Fundo shower element with point drainage and the right drain to suit – completely adapted to your construction situation. Our drains are always supplied with a stainless steel cover. Do you need a different design? You have the freedom of choice, because our range includes drain covers in a variety of additional formats and colours.

Separate drain technology

Even smarter: a complete system

The all-in-one practical solution: we supply shower elements with a factory-integrated drain technology. Here, the appropriate drain cover is also included in the scope of delivery, as is a sealing sheet for the drain outlet area. We recommend the optimised wedi Fundo sealing set for sealing adjacent areas - this all-in-one solution includes a 2-component wedi 520 sealing slurry, a wedi Tools sealing tape and wedi Tools sealing corners.

Integrated drainage

Required system components

System component	wedi product		
Shower element	wedi Fundo shower element with point drainage		
Drain	wedi Fundo point drain suitable for wedi shower elements with point drainage		
	vertical DN 50 vertical DN 50 fire protection collar vertical DN 70 vertical DN 70 fire protection collar	horizontal DN 50	Mini Max horizontal, extra flat DN 40
Sealing	wedi Fundo sealing set includes all components for the sealing of joints between the wedi Fundo shower element and adjoining areas		
Installation material	wedi 320 universal tile adhesive		

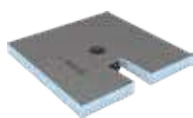

Optional system components

System component	wedi product
Sound insulation	wedi Nonstep ProS sound insulation mat*
	wedi Tools edge insulation strips for acoustic decoupling between the shower element and the wall
Accessories	wedi Fundo substructure set substructure element for height compensation
	wedi Fundo sloping board
	wedi Fundo designer drain cover
	wedi Fundo drain frame
	wedi Fundo drain substructure element suitable for Fundo point drains vertical/horizontal DN50 especially recommended for installation in suspended timber floors
	wedi Tools cut-resistant tape
	Fundo Top ready-to-use surface** tailor-made surfaces for wedi Fundo shower elements

* When using the sound insulation mat, the installation height is increased by 9 mm.

** When using the Fundo Top surface, the build-up height increases by the thickness of the surface material plus 1 mm adhesive layer thickness (wedi 610).

	1,200 × 1,200 × 90 mm	£ 89.58	073743011	4024125121309
	1,500 × 1,500 × 90 mm	£ 102.54	073743012	4024125121316

- i** The Fundo substructure set is delivered as a kit. A mount height of 30, 60 or 90 mm is produced with the help of the two elements with different thicknesses. The 3-part drain mount precisely incorporates the various drains
- The Fundo substructure set can easily be shortened to the necessary dimensions in length and width. The appropriate variant and number required depend on the dimensions of the Fundo shower element selected. Order 2 × substructure set 900 × 900 mm for 1,800 × 900 shower elements, order 2 × substructure set 1,200 × 1,200 mm for 2,000 × 1,000 shower elements
- Freely selectable drain position (depending on the Fundo shower element selected)

- pe** The recess for the drain mount and drain pipe is created on the construction site

accessories

- required: wedi Fundo shower element with point drainage, wedi Fundo shower element with linear drainage, wedi Fundo point or channel drain
- optional: wedi 320 universal tile adhesive
- not compatible: Fundo fire protection collar point drain

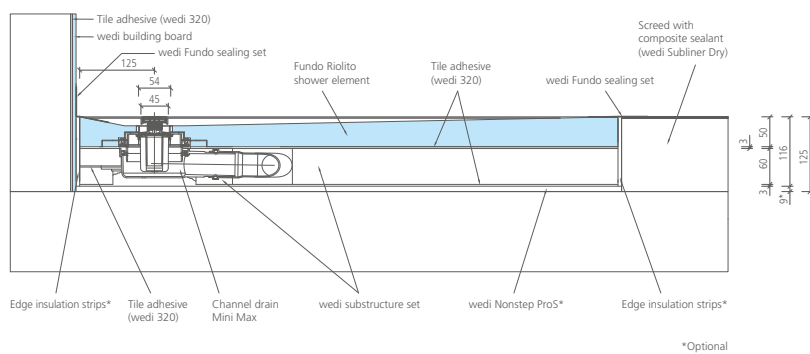

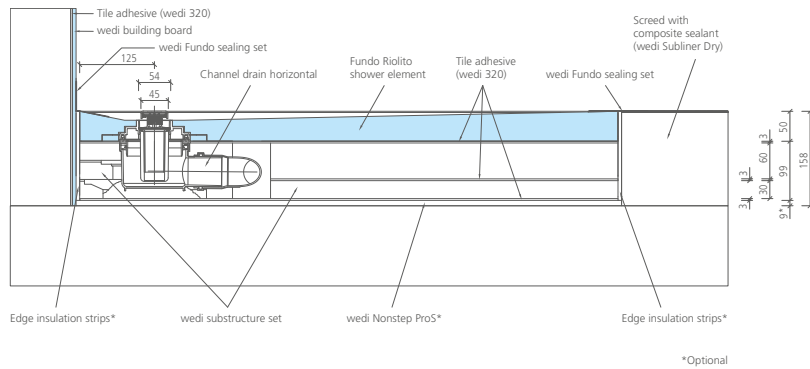

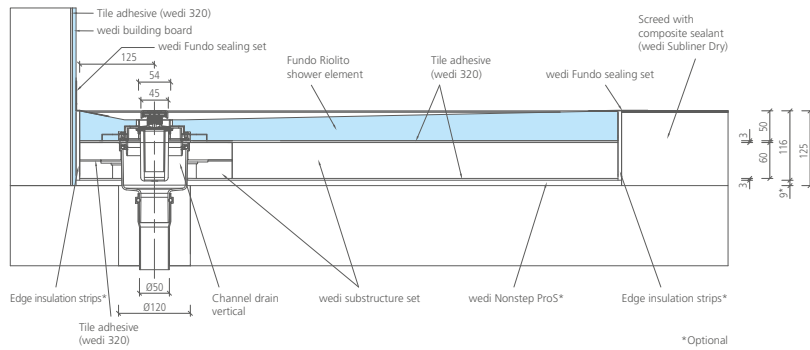

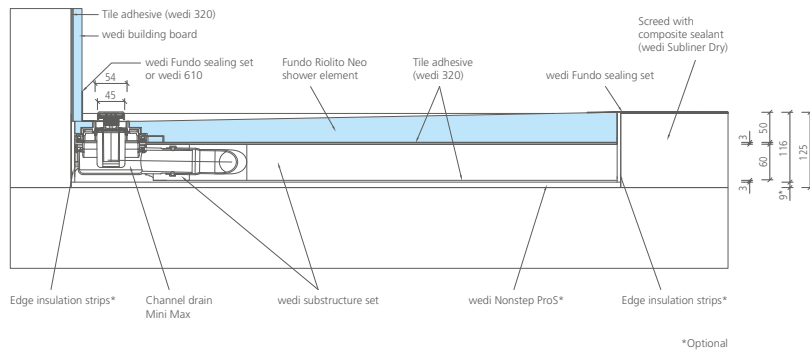

scope of delivery

- 1 × EPS substructure element, 60 mm thick
- 1 × EPS substructure element, 30 mm thick
- 3 × drain mount for point and channel drains (vertical, horizontal, Mini Max)

full pallet quantity 10 units

02 | wedi Fundo® linear shower systems

Fundo Flex®: variable and versatile linear drainage

Fundo Flex sets standards for flush-to-floor shower installations on wood and screed. Its slim, only 35 mm wide channel design fits harmoniously into any bathroom concept. What's more, thanks to the customisable channel element, channel profile and sloping boards, it can be adapted to any layout. For 2026, we added a rectangular slope extension and a square wedi Fundo Wave substructure element to the system.

Fundo Flex® channel element - rectangular

	length × width × thickness	price	order no.	GTIN
	1.200 × 160 × 22,5 mm	£ 172.32	077500017	4024125205191
	1.600 × 160 × 22,5 mm	£ 201.69	077500018	4024125205207

- i** The narrow Fundo Flex channel element can be individually shortened, installed in or on the floor substrate and optimally adapts to any bathroom. Thanks to the pre-assembled eccentric, the position of the channel (close to the wall, at a distance from the wall) can be adjusted flexibly and easily
- The length of the channel element determines the appropriate shower channel

accessories

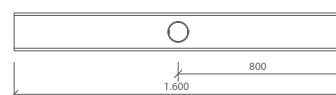

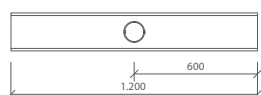

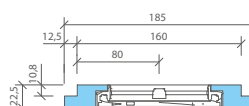

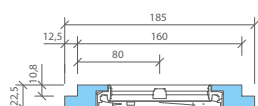

- required: wedi Fundo Wave drain, wedi Fundo shower channel 1.0
- optional: wedi Fundo sloping board, wedi Tools sloped lip-end sealing tape, wedi Fundo slope profile, wedi Fundo sealing set
- not compatible: Fundo Top ready-to-use surface, wedi Fundo channel drain, wedi Fundo channel cover, wedi Fundo channel frame

scope of delivery

- 1 × Fundo Flex channel element
- 1 × insert, pre-mounted
- 1 × eccentric, pre-mounted
- 1 × cap tool
- 1 × removal aid

full pallet quantity 60 units

Install. Finish!

wedi Fundo® linear shower systems

Modern, flush-to-floor shower areas with linear drainage - be it the placement of the drain channel, the colour of the channel covers or the measurements, the large variety of our linear Fundo shower elements offers maximum design flexibility. Our diverse and comprehensive design selection also includes a complete system with integrated drain technology. Of course, all products are tested, approved and 100 % waterproof when used as system components within the wedi system.

Fundo RioLigno® Flush-to-Floor Shower Element

Flush-to-floor showers on suspended timber floors place special demands on the workmanship. With the Fundo RioLigno shower element, we offer special solution that enables a straightforward and reliable installation in suspended timber floors. The shower element has a material thickness of only 25 mm, and of course, it is perfectly matched to other wedi system components, which makes the installation even easier.

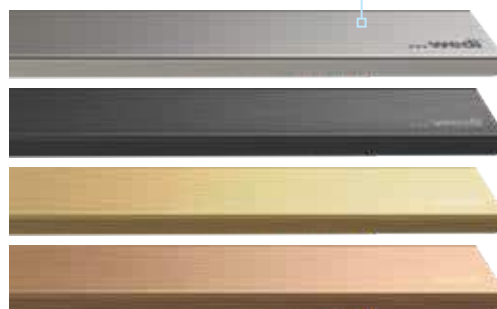

Especially for
suspended timber floors

Exclusive Coloured Drain Covers

Available in 5 different lengths with integrated height adjustment, the range of our brushed stainless steel channel covers also include a tileable variant. The wedi Fundo drain covers perfectly complement the wedi system, and at the same time, they open up a wide range of design options: beside exclusive and tileable options, we now also offer special colours with high-quality and durable PVD coating in "metallic black", "metallic gold" and "metallic rose-gold". For a harmonised, high-quality look, channel frames in the same colours are also available - perfect match to the common fittings of leading manufacturers.

Diverse
design options

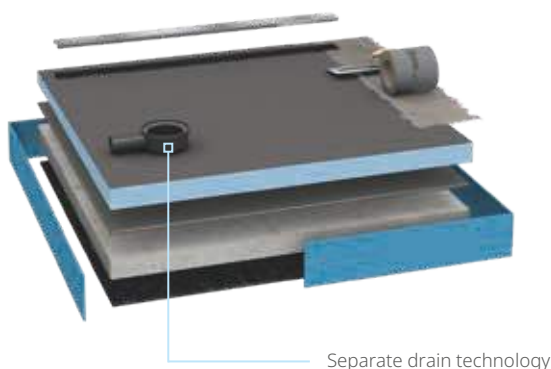

System configuration

For linear drainage, the wedi Fundo range offers well-thought-out solutions that are suitable for any installation situation, whether for refurbishment or new construction. All components are designed to harmonise perfectly with one another – with wedi you choose an intelligent system.

- Flexible: suitable for installation in or on screed floors
- Versatile: large assortment with short or long channel in various measurements
- Diverse: with the drain positioned close to the wall, at a distance from the wall or in the centre
- Adaptable: with either vertical or horizontal drainage
- Reliable: easy installation and sealing to adjacent surfaces with the appropriate wedi accessories
- Tailored: custom-made wedi Fundo shower elements are available on request

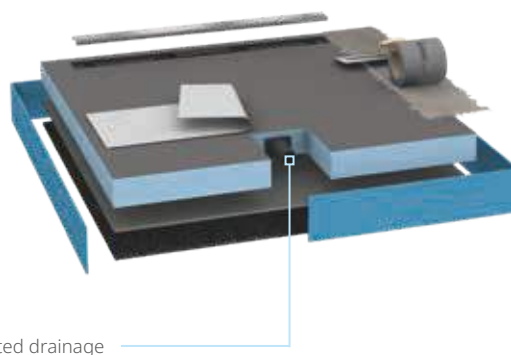

Smart: a classic system

Coordinated solution: the system consists of a wedi Fundo shower element with linear drainage and a drain, which you can order in different versions. Please note: due to the many available options, the scope of delivery does not include a channel cover, so please order it separately.

Even smarter: a complete system

The all-in-one practical solution: we supply shower elements with a factory-integrated drain technology. In addition to a sealing sheet, the scope of delivery also includes the appropriate channel cover – exclusive options such as metallic colours are available separately. Here too, we recommend the optimised wedi Fundo sealing set for sealing adjacent areas: this all-in-one solution includes a 2-component wedi 520 sealing slurry, a wedi Tools sealing tape and wedi Tools sealing corners.

Required system components

System component	wedi product
Shower element	wedi Fundo shower element with linear drainage
Drain	wedi Fundo channel drain suitable for wedi shower elements with linear drainage
	vertical DN 50 vertical DN 50 fire protection collar
	horizontal DN 50
	Mini Max horizontal, extra flat DN 40
Channel cover	wedi Fundo channel cover suitable for wedi Fundo linear drainage
Sealing	wedi Fundo sealing set includes all components for the sealing of joints between the wedi Fundo shower element and adjoining areas
Installation material	wedi 320 universal tile adhesive

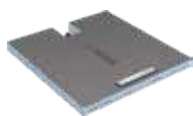

Optional system components

System component	wedi product
Sound insulation	wedi Nonstep ProS sound insulation mat*
	wedi Tools edge insulation strips for acoustic decoupling between the shower element and the wall
Accessories	wedi Tools step-folded, sloped lip-end sealing tape
	preformed sealing corners for wedi Fundo shower elements with linear drainage
	wedi Fundo channel frame
	Fundo Discreto optical wall-drain attachment element
	wedi Fundo sloping board
	wedi Fundo slope profiles for optical slope compensation
	wedi Fundo substructure sets substructure elements for height compensation
	wedi Fundo channel drain substructure element suitable for Fundo channel drains vertical/horizontal DN500 particularly recommended for installation in suspended timber floors
	wedi Tools cut-resistant tape
	Fundo Top ready-to-use surface** tailor-made surfaces for wedi Fundo shower elements

* When using the sound insulation mat, the installation height is increased by 9 mm.

** When using the Fundo Top surface, the build-up height increases by the thickness of the surface material plus 1 mm adhesive layer thickness (wedi 610).

for Fundo shower elements with point or linear drainage

	length × width × thickness	price	order no.	GTIN
	900 × 900 × 90 mm	£ 76.59	073743010	4024125121286
	1,200 × 1,200 × 90 mm	£ 89.58	073743011	4024125121309
	1,500 × 1,500 × 90 mm	£ 102.54	073743012	4024125121316

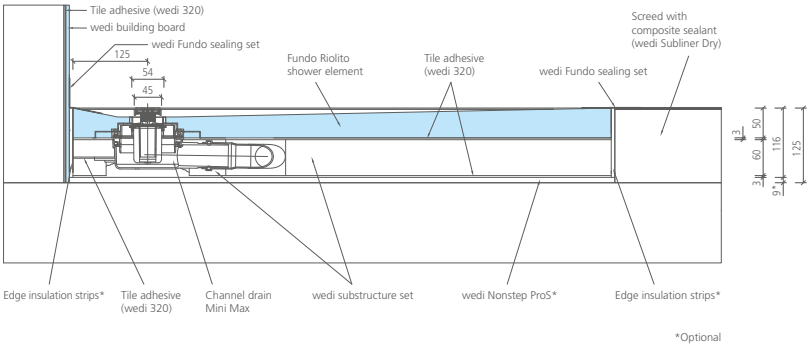

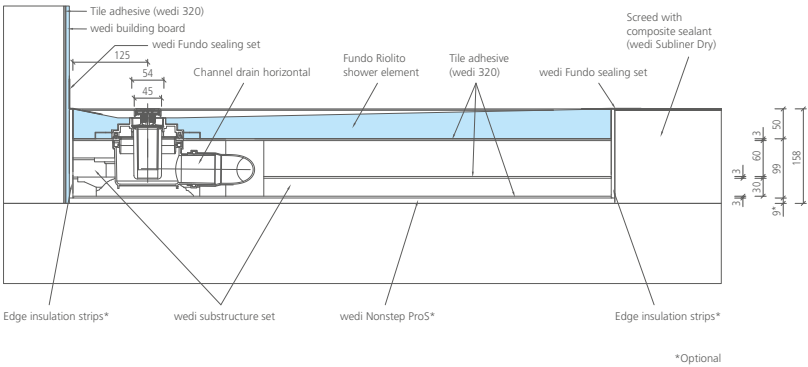

- The Fundo substructure set is delivered as a kit. A mount height of 30, 60 or 90 mm is produced with the help of the two elements with different thicknesses. The 3-part drain mount precisely incorporates the various drains
- The Fundo substructure set can easily be shortened to the necessary dimensions in length and width. The appropriate variant and number required depend on the dimensions of the Fundo shower element selected. Order 2 × substructure set 900 × 900 mm for 1,800 × 900 shower elements, order 2 × substructure set 1,200 × 1,200 mm for 2,000 × 1,000 shower elements
- Freely selectable drain position (depending on the Fundo shower element selected)

- The recess for the drain mount and drain pipe is created on the construction site
- accessories
 - required: wedi Fundo shower element with point drainage, wedi Fundo shower element with linear drainage, wedi Fundo point or channel drain
 - optional: wedi 320 universal tile adhesive
 - not compatible: Fundo fire protection collar point drain
- scope of delivery
 - 1 × EPS substructure element, 60 mm thick
 - 1 × EPS substructure element, 30 mm thick
 - 3 × drain mount for point and channel drains (vertical, horizontal, Mini Max)

full pallet quantity 10 units

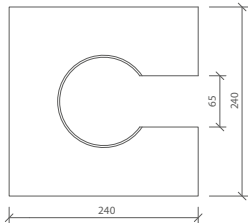

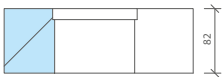

wedi Fundo® channel drain substructure element - square
for Fundo channel drains

	length × width × thickness	price	order no.	GTIN

Linear shower systems

03 | wedi design and shape

They are comfortable, they are stylish, they make a statement: with wedi benches and loungers, you can design modern wellness areas. The many different configurations make a wide variety of combinations possible, but of course, individual, tailor-made solutions are also available on request. Perfectly matched to these products is a comprehensive portfolio of seamless design surfaces in a variety of colours and textures – for floor, wall, niche and bench cladding.

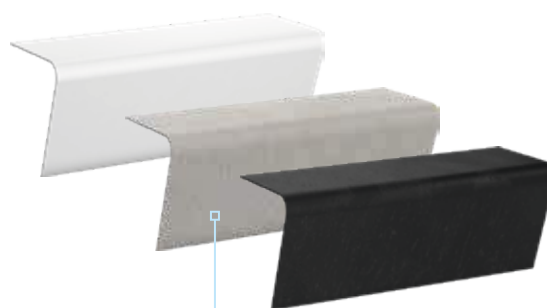

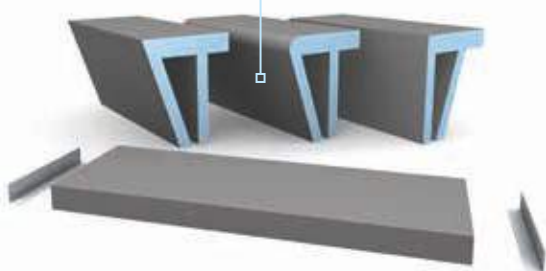

wedi Sanoasa® bench 1-4

Wellness for every generation from the first minute on: the elegant wedi Sanoasa benches give bathrooms a very personal touch. The four available variants - straight, angled, rounded and floating - are waterproof, extremely stable, very light and flexibly mountable. Key detail: the floating bench 4 does not require a substructure and can also be installed on the existing tiles.

wedi Sanoasa® Top for bench 3

Design, comfort and functionality in perfect harmony? Our ready-to-install design surfaces allow you to create low-maintenance oases of hygiene in shower and wellness areas. Made to match our Sanoasa bench 3 with rounded seat edge, the seamless Sanoasa Top surface offers a comfortable, warm-to-touch seating for showers. The 6 mm thick material combines an elegant look with a pleasant, natural feel and is simply bonded to the bench element with wedi 610 adhesive and sealant.

Variety

04 | wedi building systems

The original with the blue core: the wedi building board is the perfect basis for innovative bathroom designs. Light, stable, thermally insulating, directly tileable and 100 % waterproof in the system, it is available for floor and wall applications as well as for free-standing partitions. Functional elements such as shelf and niche solutions, cladding elements for pipe connections and toilet wall installations are also created from the boards – these preformed, factory sealed cladding solutions are just a few examples of the numerous possibilities.

Reliable solution: wedi Sanwell® shower wall module

Fast and secure installation: we deliver the shower wall module, ready-made, with factory-integrated and sealed technology. This ensures maximum reliability, as the integrated cold and hot water pipes as well as the Hansgrohe iBox* are already sealed in the factory. Needless to say, this also makes the installation much easier: simply bonding to the floor and wall is sufficient.

You can order the wedi Sanwell shower wall module in different thicknesses and widths. It is suitable for both backwall installations and for use as a freestanding shower partition.

*iBox is a trademark of Hansgrohe SE.

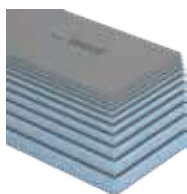

wedi Sanwell® XS shower wall module

A particularly compact solution is required? At 300 x 2500 mm, this module is perfect for shower spaces with widths of 900, 1200 or 1500 mm. The flexibly expandable module is equipped with cold and hot water pipes sealed at the factory (compatible with the customary surface-mounted fittings), and a reinforcement plate for the secure fixing of shower rods on site.

The low weight, factory preparation and ease of processing allow for significant time savings on the job site. Impresses in every respect, whether for new construction or renovation.

wedi Sanwell® shower wall module

	length × width × thickness	price	order no.	GTIN
	2.500 × 900/1.200 × 80/100mm	on request	076400356	4024125200035

- Customer-specific custom product
 - With factory-installed water pipes
 - Integrated and sealed Hansgrohe iBox for connection of over 200 recessed fittings (Hansgrohe/AXOR)
 - Available in widths of 900 mm or 1,200 mm and thicknesses of 80 mm or 100 mm
 - In addition, a niche substructure can be selected
 - The height for the shower head and handheld shower outlet can be individually adjusted
 - Can be requested via the order form
- The shower wall module can be used for a variety of applications, such as: installation on the existing substrate or as a free-standing partition
 - The integrated reinforcement plates allow installation of the handheld shower on both sides of the iBox
 - Can be cut and shortened on site
- scope of delivery
 - 1 × shower wall module
 - 1 × Hansgrohe iBox
 - 4 × factory-integrated PVC reinforcement plates

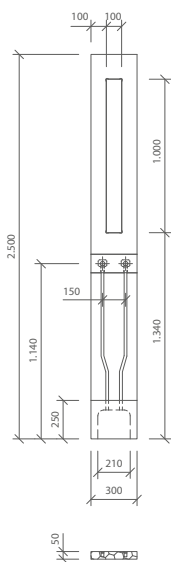

NEW **wedi Sanwell® XS shower wall module**
for the installation of surface-mounted fittings

01.06.2025

	length × width × thickness	price	order no.	GTIN
	2.500 × 300 × 50 mm	£ 736.38	076400375	4024125206853

- i** The XS shower wall module with integrated reinforcements for surface-mounted fittings simplifies the planning and installation of shower areas
- The factory-integrated cold and hot water pipes ensure an efficient and safe installation
- Thanks to its compact size, the module is ideal for standard shower areas
- ie** It can be used on its own or in combination with 600, 900 or 1,200 mm wide standard wedi building boards
- The integrated reinforcement plate also allows for the installation of shower rails
- Thanks to its low weight and clever construction, it is the perfect solution for quick bathroom modernisations as well as new bathroom constructions
- tr** scope of delivery
 - 1 × shower wall module
 - 1 × factory-assembled ½" cold and hot water piping
 - 1 × factory-integrated PVC reinforcement plates

wedi Sanwell® XL wall element - 60/30

	length × width × thickness	price	order no.	GTIN
	2.500 × 900 × 100 mm	£ 656.67	041701100	4024125091749

 - 1 × wall segment type B
 - 4 × wall segment type C
 - 1 × wall segment type D
 - 1 × wall segment type E (with reinforcement for fittings and shower head)
 - 1 × wall segment type F (with reinforcement for installing the shower rail)
 - 1 × wall segment type G
 - 1 × inspection board, building board 40 mm
 - 8 × spring
 - 2 × wedi Tools joint reinforcement tape, self-adhesive, 25 m
 - 7 × wedi 610 adhesive sealant, cartridges
- delivery time approx. 4 – 5 weeks ex-works

wedi Fundo® glass swing door • aluminium / tempered glass

for Fundo Trollo, Trollo Libero

	length × width × thickness	price	order no.	GTIN
	1.990 × 558 × 100 mm	£ 2,219.75	608001100	4024125091169

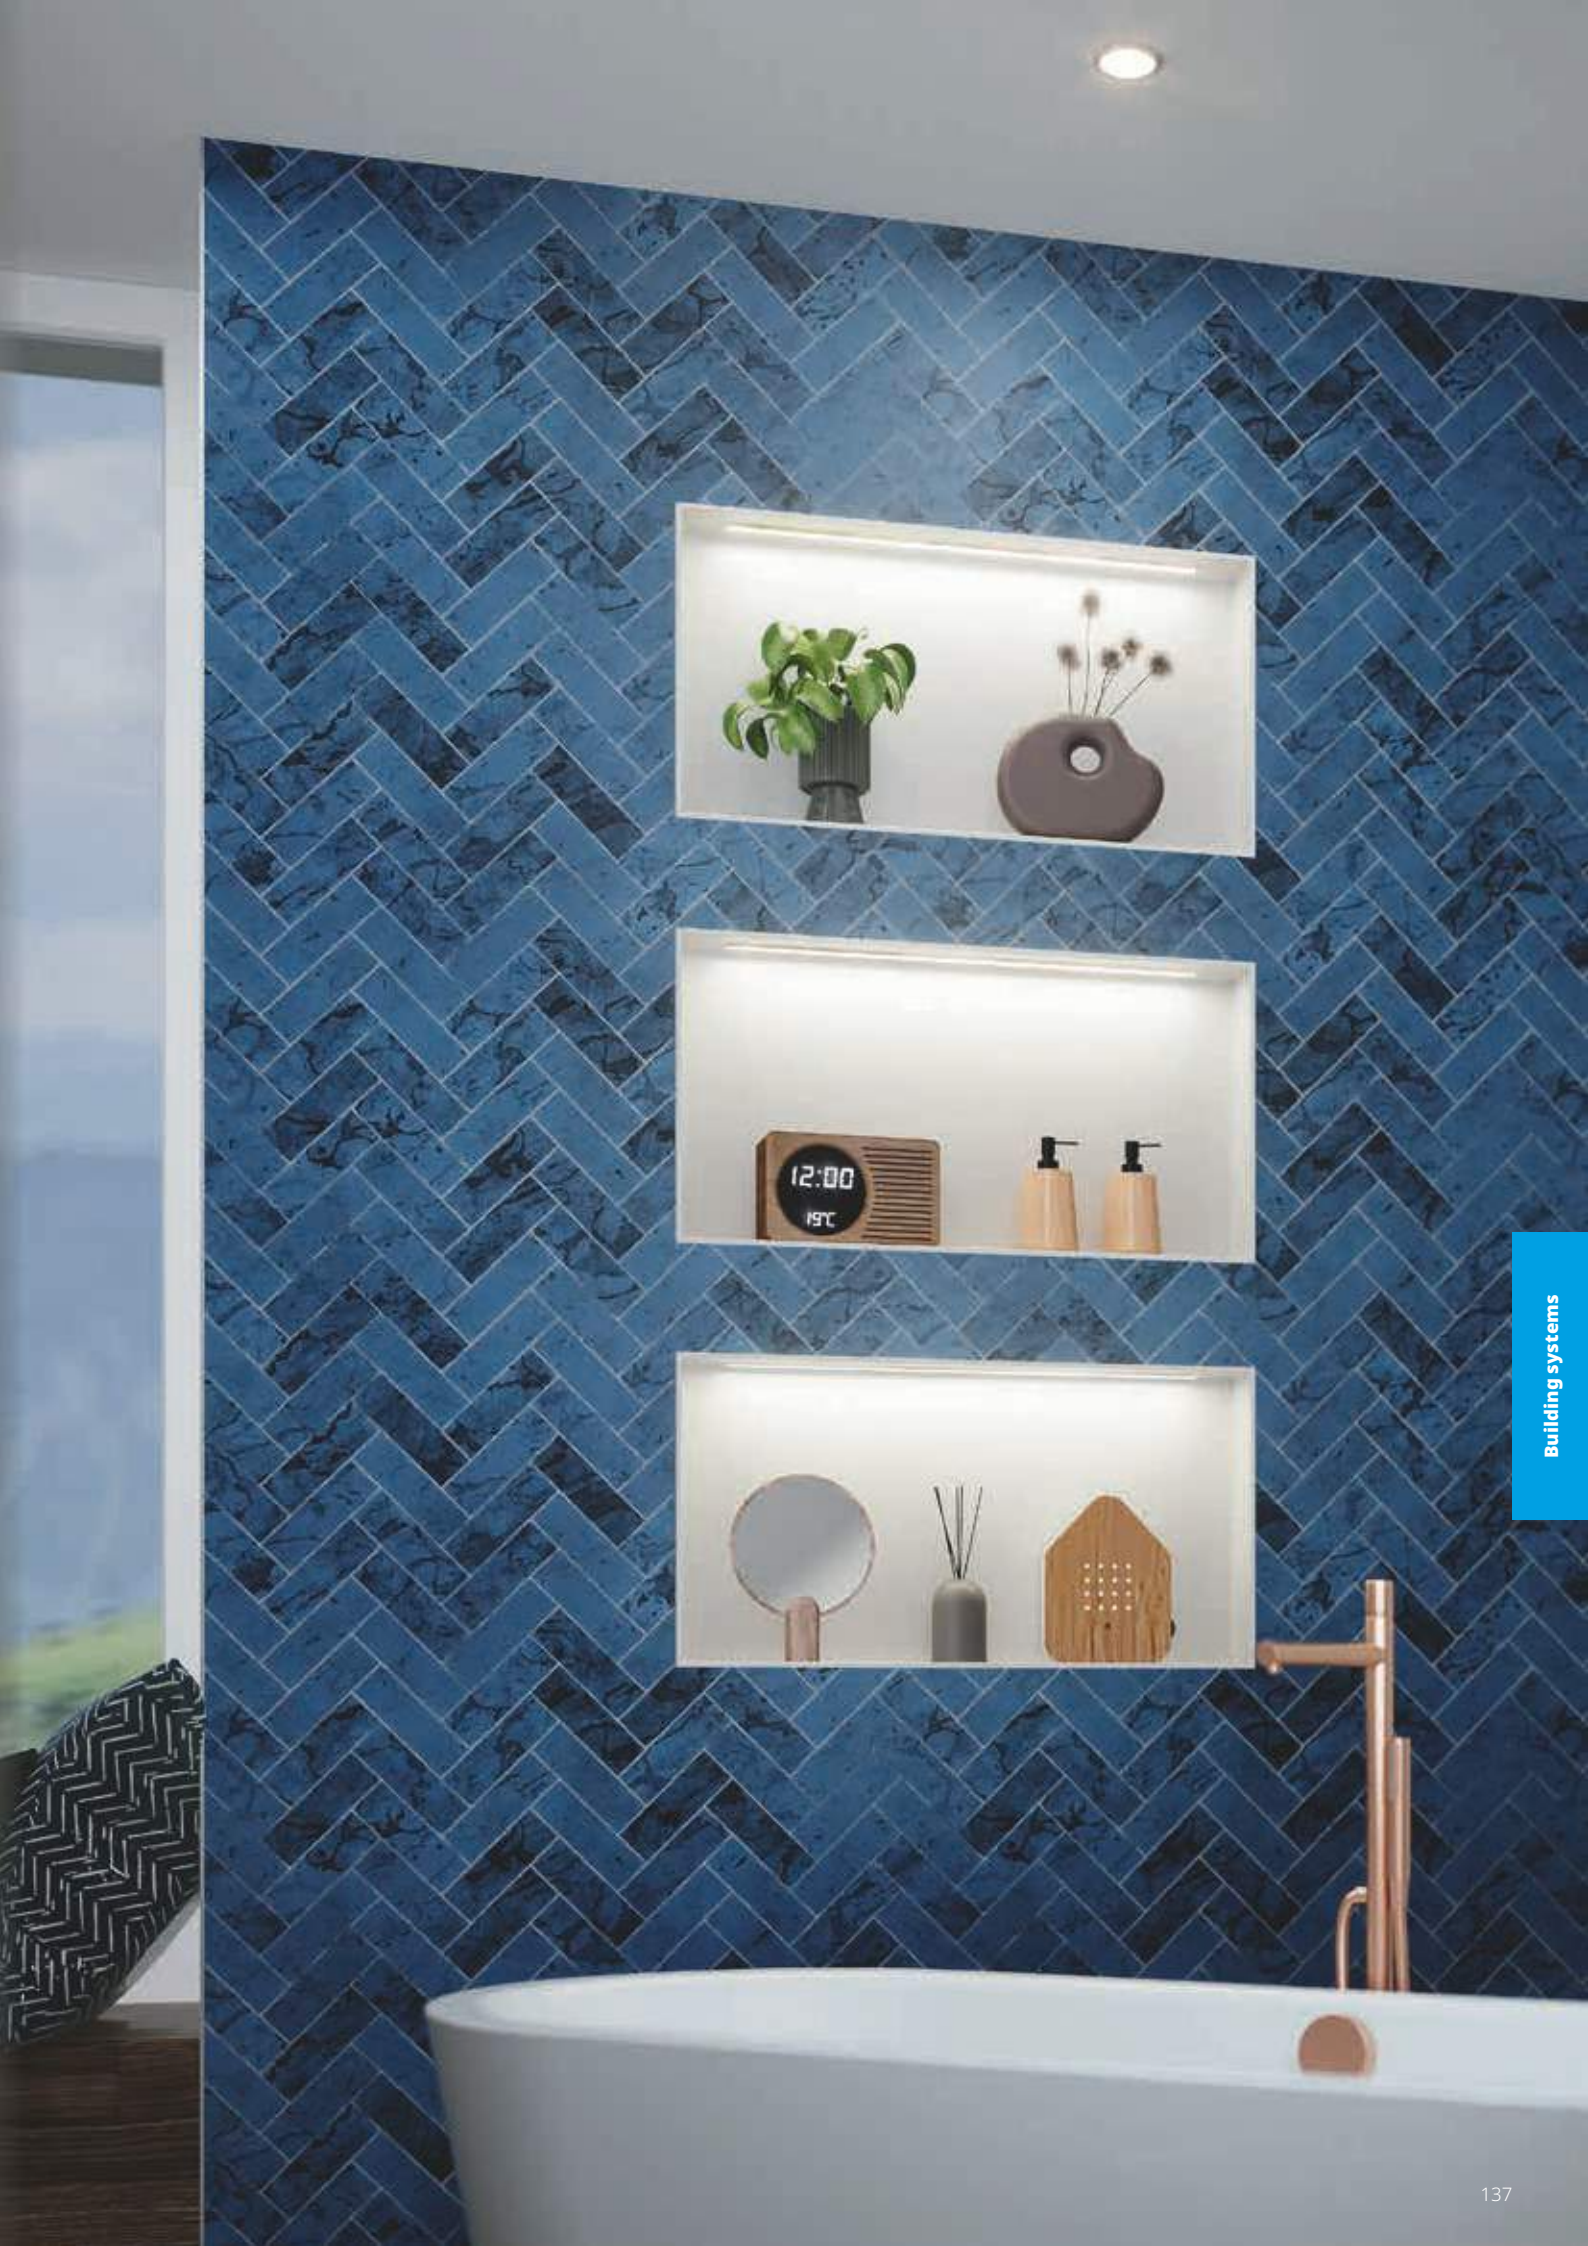

- The glass door can only be mounted after tiling

scope of delivery

- 1 × glass door
- 1 × chrome-plated doorknob
- 2 × high gloss anodised aluminium wall connection profiles
- 1 × stop rail
- 1 × sealing and protection profile
- 1 × silicone
- 14 × screws

05 | wedi system accessories

Bonding, sealing, fastening, decoupling and installing impact sound insulation: with wedi construction systems, everything goes faster. Every component designed to interlock with one another and, filling the gaps, wedi system accessories such as the wedi Tools, ensure that installers are on the safe side in any ground or structural situation - fast, high-quality and guaranteed reliability.

wedi 610® adhesive sealant

Glue quickly and seal 100% for enduring performance in just one step: the single-component adhesive sealant secures butt joints between wedi building boards. It is weather and chemical resistant, free of solvents, silicones and PCP. The combination of wedi building boards and wedi 610 has ETA approval for highly stressed areas.

For bonding and
sealing

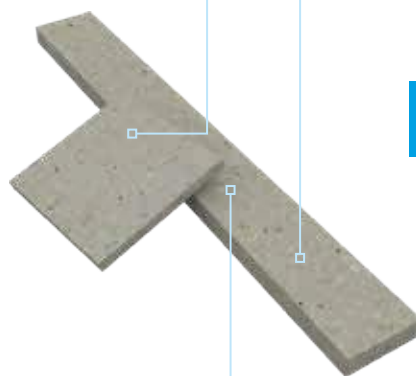

Solvent-, silicone- and PCP-free

wedi Tools® fixings set

Do you want to attach heavy objects to tiled or plastered wedi building boards? For this purpose, we have sets with small and large reinforcement plates in our range, to suit all requirements. They are simply inserted and glued with wedi 610 into a corresponding recess of the wedi building board. A useful addition to our well-thought-out system.

Fixing heavy objects - up to 80 kg and 160 kg

Sealing in the wedi system with quality guarantee

The right solution for every requirement

Sealing is a key theme in the building and renovation of bathrooms, in particular because of the interaction of various trades. That is why wedi has developed its own tested and approved sealing concept for wet rooms. The sealing details include butt joints on walls and floors, expansion and contraction joints, transitions to the shower area and all types of intersections.

Consisting of interlocking products that are safe, easy and quick to install, the wedi sealing system is tested and approved according to international and national standard. Whether it is CE labelling or DIN standards - every year, the individual products are audited by an independent testing institute according to the strictest quality and safety criteria. The products are then labelled accordingly with a CE mark. The result is impressive: lasting reliability in the system.

The best thing: all wedi price list items that have a waterproofing function are covered by the 10-year wedi quality guarantee. Reliability in the system and guaranteed!

For a detailed product overview and the applicable warranty conditions, please visit www.wedi.net/en.

Types of surface sealing

No.	Area	Exposure to water Water impact (in accordance with DIN 18534-1)	Waterproofing type	Recommended sealing systems
1	Wall surfaces in showers	moderate (W1-I)	panel type seal	wedi building boards
			liquid seal	wedi 520 flexible sealant
			sheet type seal	wedi Subliner Dry
			sheet type seal	wedi Subliner Dry & Flex
2	Shower partition wall	moderate (W1-I)	panel type seal	wedi building board, as a partition wall from 50 mm
3	Flush-to-floor showers	high (W2-I)	panel type seal as a shower element with drain	wedi Fundo shower elements
4	Wall surfaces above bathtubs	moderate (W1-I)	panel type seal	wedi building boards
			liquid seal	wedi 520 flexible sealant
			sheet type seal	wedi Subliner Dry
			sheet type seal	wedi Subliner Dry & Flex
5	Floors without high exposure to water from the shower area	moderate (W1-I)	panel type seal	wedi building boards
			liquid seal	wedi 520 flexible sealant
			sheet type seal	wedi Subliner Dry
			sheet type seal	wedi Subliner Dry & Flex
	Floors with flush-to-floor showers	high (W2-I)	panel type seal	wedi building boards
			liquid seal	wedi 520 flexible sealant
			sheet type seal	wedi Subliner Dry
			sheet type seal	wedi Subliner Dry & Flex

National standards, data sheets and guidelines should always be observed

wedi Fundo® sealing set

for sealing with wedi 520

	content	price	order no.	GTIN
	1 set / bucket	£ 94.46	073796000	4024125000178

- A wedi Fundo sealing set is sufficient for installing a Fundo shower element including the respective wall elements

- scope of delivery
 - 1 × wedi 520 powder component, 2,4 kg
 - 1 × wedi 520 liquid component, 1,2 kg
 - 1 × wedi Tools sealing tape, 10 m
 - 2 × wedi Tools inside corners

full pallet quantity 36 units

NEW wedi Tools® shower tray sealing set

01.01.2026

for sealing with wedi 520

	content	price	order no.	GTIN
	1 set / bucket	£ 171.04	073796002	4024125206860

- Specially coordinated set with the right material for secure sealing of shower trays (resin, acrylic, ceramic)

- scope of delivery
 - 1 × wedi 520 powder component, 2,4 kg
 - 1 × wedi 520 liquid component, 1,2 kg
 - 1 × wedi Tools butyl bathtub sealing tape, 6m
 - 1 × PE foam round cord, 6 m
 - 2 × wedi Tools butyl sealing corner for walls
 - 4 × wedi Tools butyl sealing corner for floors

full pallet quantity 36 units

wedi Tools® wall sealing set

for sealing with wedi 520

	content	price	order no.	GTIN
	1 set / box	£ 170.68	095110371	4024125127257

- A specially tailored set with all necessary components required for the reliable sealing of shower walls within the wedi system

- accessories
 - required: wedi 320 universal tile adhesive

- scope of delivery
 - 1 × wedi 520 powder component, 2,4 kg
 - 1 × wedi 520 liquid component, 1,2 kg
 - 1 × wedi Tools sealing gaiter 250 × 250 mm
 - 2 × wedi Tools sealing gaiter 130 × 130 mm
 - 3 × wedi Tools sealing tape, 250 × 12 cm
 - 3 × wedi Subliner Dry sealing membrane, 250 × 100 cm

full pallet quantity 24 units

	25.000 × 150 × 5 mm	£ 9.66	011255006	4024125094696

- i** Reduces sound transmission between the Fundo shower element and adjacent areas (wall, screed, etc.)

content per box 8 units

06 | Good to know

wedi offers more. The following pages provide a concise overview of other services we offer along with technical information. You will find real added value for maximum reliability - from project business to commitment to reliability and standards to a voluntary manufacturer's quality guarantee.

Configure. Order. Install.

Implementing the customer's ideas requires craftsmanship and a special imaginative power. With the wedi Shower Configurator, you can assemble your customer's dream shower online any time and even adjust the configuration if new ideas come up during the creation process.

Added bonus: the system not only suggest the suitable products for every installation situation but also prevents incorrect orders. Configure, order, get started!

www.wedi.net/en/service/shower-configurator

Technical notes

All technical information is available at www.wedi.net

The wedi world of systems contains a multitude of individual elements which can be variably used and modularly expanded. In order to make sure that you plan correctly, you can find technical documents which give you an overview of the respective formats, dimensions and technical requirements at www.wedi.net/en/service/downloads. There you can also access the internationally applicable installation instructions and videos. So that you can plan efficiently, and you are always on the safe side.

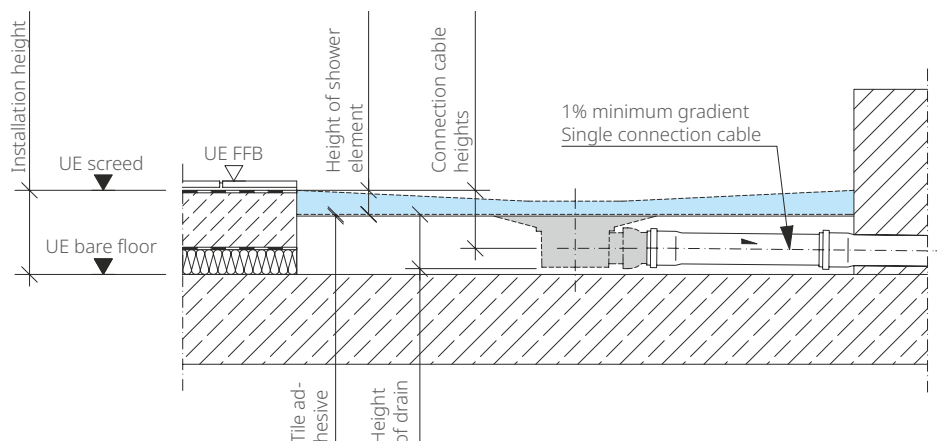

Notes on floor construction heights

Parameters relevant for your planning

Quite often, especially in renovation projects, the available construction heights are limited and for this reason, many suppliers aim to advertise with the lowest possible height specifications. This can be misleading and often results in incorrect calculation of the required floor height. As a responsible supplier, wedi always advertise the highest thickness of its floor elements so that clients are always on the safe side.

Calculation of the floor construction height

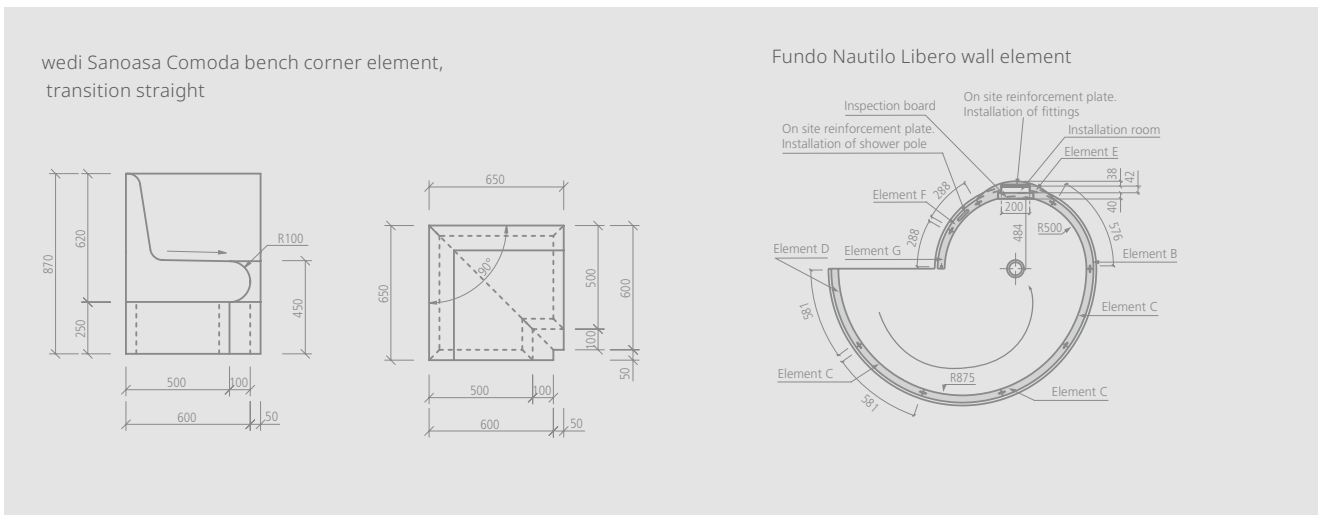

When planning a wedi floor-level shower, the floor construction height (without floor covering or adhesives) is calculated by adding the height of the wedi Fundo shower element (always advertised with its highest thickness at the outer edge) and the height of the corresponding drain body (vertical or horizontal). Where sound insulation is required, the height of the insulation mat must also be added.

Notes on tiling: maximum tile sizes for round wedi elements

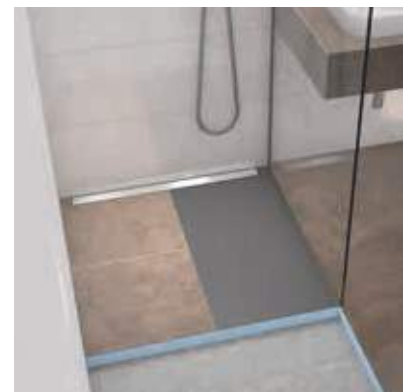

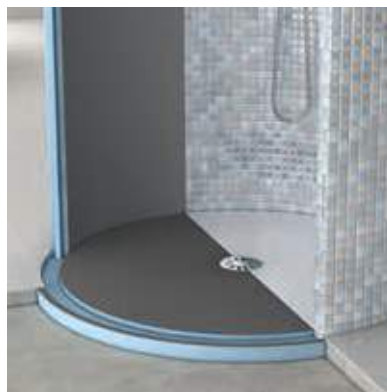

Size												
Radius	R 50	R 100	R 150	R 200	R 250	R 300	R 350	R 400	R 450	R 500	R 750	R 875
max. tile size	10 mm	20 mm	20 mm	20 mm	20 mm	50 mm	50 mm	50 mm	50 mm	50 mm	50 mm	100 mm

i The radius of wedi products can be found in the respective technical drawings.

wedi Fundo shower elements tiling examples

The tiling of wedi Fundo shower elements* depends on both their format as well as the configuration of their gradient as shown by the following examples.

*Minimum tiling size is 20 x 20 mm glass mosaic. Only from 50 x 50 mm tile size the shower becomes wheelchair accessible!

Modular construction

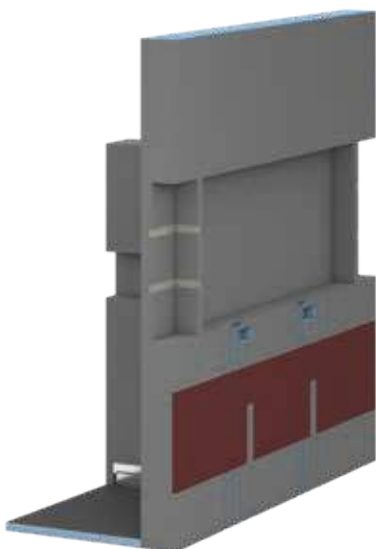

Ready-to-assemble systems for smart room concepts

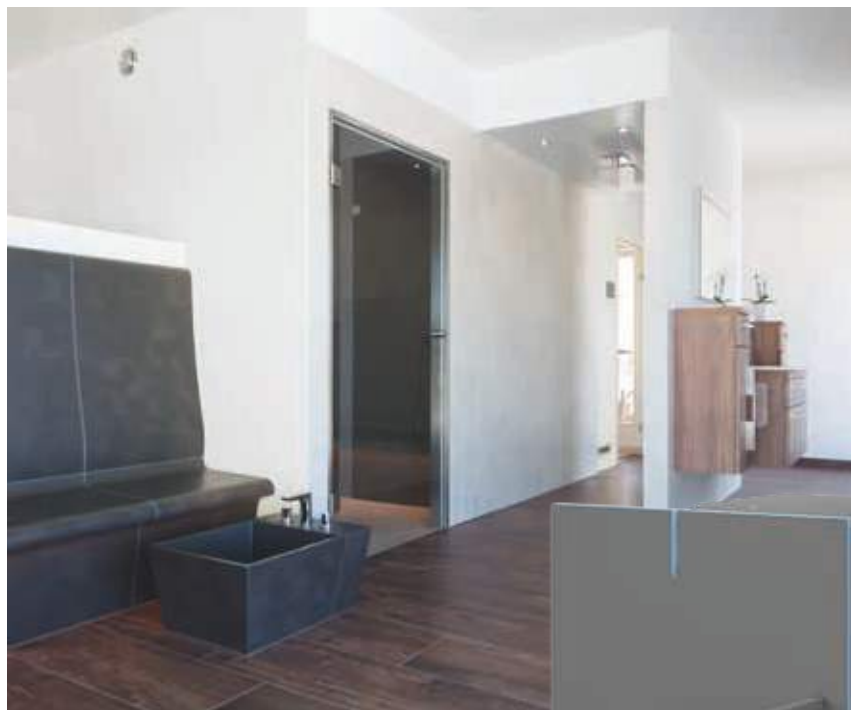

With its modular system components, wedi creates brand new opportunities for designing individual, on-trend bathrooms and wet rooms. Lightweight and at the same time enormously stable wedi modules allow for the realisation of almost anything from the floor to the ceiling and practically everything else in-between: free-standing or partially attached creative partitions, shower solutions, customised bathroom furniture or complete system solutions for spa and wellness areas for example.

Our individually made module components are always tested, load-bearing and 100% watertight structures – easier, quicker and safer than any other conventional drywall designs. Each module is custom-made. The degree of prefabrication can be chosen freely: from factory-integrated electrical, cold and hot water lines through loadbearing reinforcements, cable ducts or empty pipes to fixed and finished technical components and fittings. Before delivery, we set up all individual productions in the factory for testing and test them down to the smallest detail.

Three-sided T-module

The modular system for toilet, shower and wash basin contains all technical components and reinforcement.

Steam bath, bench and modular shower

Planned and implemented – a private wellness area with a steam bath, experience shower and foot basin.

Spa & Wellness

Create swimming pools, whirlpools and underwater elements exactly according to customer requirements

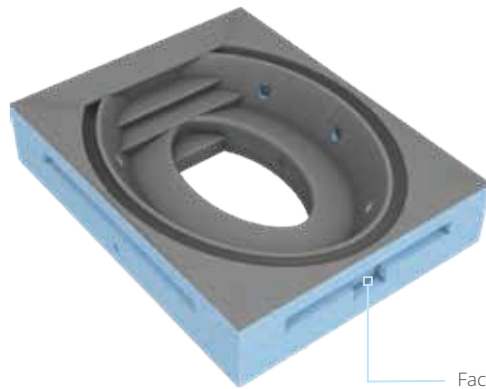

The experienced wedi project team can provide comprehensive support throughout this process. Whether aesthetic stairway-constructions, comfortable benches or other elements, the only limit is your imagination – thanks to our innovative systems, the design possibilities are endless. Enjoy a unique creative freedom and let your imagination run wild!

Ex factory recesses and penetrations are also included, for example for on-site massage nozzles or lighting technology. Of course, we examine everything thoroughly. Thanks to the combination of individuality and complete service, you are always on the safe side – with less installation effort and and precision in every detail.

Modular Spa

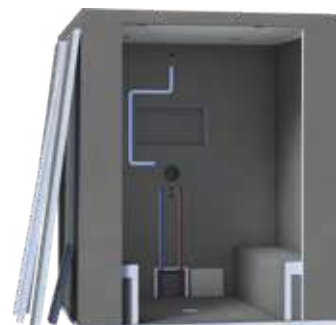

In the realm of relaxation and recreation, the steam bath series from wedi opens up a variety of possibilities to transform conventional showers into true oases of well-being. The modular system allows individual configuration of steam baths, perfectly adapted to personal needs. A finished roof coating, a factory-fitted vapor barrier and a high-quality flush-mounted units for the steam cabin are part of the equipment. Different configurations available for harmonious integration to any room concept. In addition, lighting and shower technology can be integrated as desired. The entire water supply is pre-assembled within the system and can be easily connected to the supply lines on site.

The CE marking in the European area shows that a product fulfils the requirements for reliability, health and environmental protection. It confirms the tested and approved use of wedi waterproofing systems for wet rooms.

UKCA (UK Conformity Assessed) is the new product label for the UK. It shows that the wedi waterproofing system fulfils the applicable UK regulations and is approved for sale.

A general building supervisory test certificate (abP) is a proof of usability in accordance with the state building regulations. It confirms that the wedi waterproofing system meets the technical and building regulations requirements.

wedi Fundo elements have been tested, evaluated and certified by the DIN Certco Gesellschaft für Conformity Assessment mbH in terms of compliance with DIN 18040-1 and DIN 18040-2.

wedi product systems have been technically tested and awarded in France by the Centre Scientifique et Technique du Bâtiment (CSTB), a technical and scientific institute that deals with issues of construction quality and safety.

wedi product systems comply with building codes and guidelines in England, Wales, Northern Ireland and Scotland.

The MK seal of approval qualifies wedi products for use in Denmark in accordance with country-specific guidelines, norms and standards.

The Norwegian seal of approval, which meets European requirements, certifies the high technical quality of wedi product systems.

wedi products and systems are tested by the US test institute ICC-ES for national standards conformity and requirements for building regulations and approved for the US market.

wedi building systems are awarded the leading Finnish emission classification. In this context, M1 stands for the highest quality.

wedi systems are labelled in accordance with the French VOC regulations. A+ stands for exceptionally low-emission, non-hazardous product systems.

Many of our products have been awarded the Sentinel House Seal. This confirms that the products have been tested for harmful substances and contribute to a healthy living environment.

The independent certification body GUTcert certifies the holistic wiedenvironmental management system according to ISO 14001, energy management system according to ISO 50001 and quality management system according to ISO 9001.

What if small steps achieve a big impact ...

Each journey begins with a first step. wedi took the first step toward sustainability 15 years ago, when sustainability in the building materials industry was just a fashionable term. Since then, we have been steadily progressing and will continue to do so with commitment in the future. Because we are aware that the path is still long.

Shaping the future step-by-step

wedi GREEN STEPS takes you along the way. We will show you in concrete terms what measures we have already taken for greater sustainability and will prove our progress with facts and figures. Instead of big green words, we announce measurable effects. After all, our motto as a member of the Ardex Group is "Building tomorrow" not "Talking tomorrow".

The power of STEPS

The best thing about small steps: you get better every day – and then you just keep at it. Because small actions, which are consistently repeated, lead to big changes. Every day, our team makes decisions that add up to a visible effect. These efforts are the driving force behind our journey toward sustainability.

The colours of GREEN

Every single decision made can have a green impact. We think beyond the potential for savings in emissions, energy and resources in production and logistics. Family, health, gender equality, life on land and in the water – everything that secures the future is a GREEN STEP for wedi.
